DETAILED ACTION

This office action is in response to applicant's amendment filed on February 28, 2003. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

1. The disclosure is objected to because of the following informalities: in claim 18, line 15, the language "in a the wave-zone" should read "in the wave-zone".

Appropriate correction is required.

Oath/Declaration

2. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue oath/declaration filed January 12, 2000 with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. Notice, the original declaration filed 01/12/2000 stated the error being corrected was "claim 15 includes the subject matter of an invention that was sold more than one year prior to the filing date." Since claims 15-17 have been cancelled, the reason for reissue as stated in the original declaration no longer exists, a new declaration signed by both inventors is needed. The declaration must set forth another error being corrected.

Claims rejection/35 U.S.C. 251

3. Claims 7-13 and 18-21 are rejected as being based upon an insufficient reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

4. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

Notice, the supplemental reissue oath/declaration filed on February 26, 2003 which was only signed by the assignee. Since the application is a broadening reissue, the supplemental declaration to cover “errors corrected during prosecution” **must be signed by the inventors also.**

5. A new oath/declaration and the supplemental reissue oath/declaration for correction of problems as set forth above can be resubmitted with a single declaration.

6. If a joint inventor refuses to join in an application for patent or cannot be found

or reached after diligent effort, the application may be made by the other inventor on behalf of himself or herself and the nonsigning inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts, the fee set forth in § 1.17(h), and the last known address of the nonsigning inventor. The nonsigning inventor may subsequently join in the application by filing an oath or declaration complying with § 1.63.

Response to Arguments

7. Applicant's arguments filed February 28, 2003 have been fully considered but they are deemed persuasive.
8. Claims 7-13 and 18-21 would be allowable if the rejection(s) under 35 U.S.C. 251 set forth in this Office action.
